ELEMENT .245

Hello Zombie Fans,
 I'm Paul McConnell and we just finished our first film entitled Element {.245} Zombie. It is based on my series of novels also called Element {.245}. The book & movie take you through the accidental outbreak of a zombie invasion. Things go real bad when a director meddles in things he shouldn't be meddling in and an intelligent is created. When all else fails the DSI (Department of Supernatural Investigations) go to their top gun to set things right. It is a lot of zombie action and character development that continues in the next film, which we start filming later this month. The zombie make up effects were done by my wife Connie and she was amazing. You can check out the trailer on Facebook under Element {.245} Zombie. The book is still available on Amazon.com and we hit a local theater engagement later this week. The DVD will be available soon on www.raichemicals.com. If there are any things that you would like to know about our project please contact me at pmcconnell@cisd.org.

A ZOMBIE TIMES APOLOGY TO BRITNEY SPEARS AND THE JETBLACKBERRIES

Last issue of the Zombie Times, we included a link to the video of the Jet Black Berries, the

band, who appeared on the Sound Track Album for Return of the Living Dead.

There is one problem though... When you hit the link for the "They Walk Among You" video it takes you to some guy talking about Britney's new video???

They've had some big influences but she ain't one of them.

For safety reasons we are going to include their MySpace link, which will get you to their tunes without finding someone singing the praises of other teen pop icons...

A CURE FOR THE DEAD - WEB SERIES

Wes Young and Matthew Harmon present A Cure For Dead, a new zombie web-series - survival, gore, sex and action packed into a cutting edge web-series available at your fingertips. With the changes that are taking place around the world with media, film and cinema our goal was to create a high production value transmedia web series that could reach the growing Internet audience, something with the sexiness of True Blood and the fun and gore of Zombieland. Thus A Cure for Dead was born. The zombie sickness has ravaged the world for the last 2 years; mentally, physically, and emotionally hardening those who have survived. The story begins with Arlin, the sole survivor, of a group of scientists that

have been desperately working on a cure for the zombie virus, until their lab was overtaken. Escaping with his life, he enlists the help of three survivalist Cassie, Emma, and Tread to take what is remaining of the zombie cure to a facility in the District of Nevada. The journey is dangerous and the zombies will not be the only things lurking around the corner for this group. The series will explore not just the zombie threat but also the exploitation. It's a fun and sexy episodic series with episode releases every two to three weeks. The series can be found at our website <http://www.acurefordead.com> and on YouTube. We will be engaging the audience with interactivity and contests. Stay tuned for more to come.

HELLDRIVER IS ONE TO WATCH OUT FOR!

Welcome to Zombieworld

This is a heads up for a new Japanese zombie movie that had its European Premiere at the Terracotta Festival and should be coming to a DVD near you soon. Terracotta Festival is held by the Terracotta Group, bringing entertaining Far East films to the UK. The annual Terracotta Far East Film Festival is now into its third year.

An alien-spawned, mysterious mist blankets the northern half of Japan, transforming those who inhale it into ravenous, flesh-eating zombies.

Plunged into chaos, Japan is torn in two: the southern half of the country, where the populace remains untouched by the deadly gas, lives behind a heavily fortified wall, while the northern half is a lawless, zombie-infected wasteland.

Hope arrives in the form of Kika (Yumiko Hara), a beautiful high school girl armed with a chainsaw sword powered by an artificial heart.

Recruited by the government, Kika leads a ragtag group of desperados on a secret mission into the zombie-infected wilds to exterminate zombie queen Rikka (Eihi Shiina from Audition and Tokyo Gore Police) and put an end to the plague of the living dead.

But the road is fraught with a thriving zombie population that refuses to lay down and die!

BUY THIS DVD OF THE DEAD

When Ryan Gollogly of Kingston, Ontario based alternative-rock band Fugitive Underground decided it was time they did a Music Video, they enlisted Stan Hart and VideoMonkey Productions to do the deed. Stan is a Make-Up FX artist turned renegade guerrilla film maker who has worked on such epic feature films as 'Zombie Night 2', 'Summer School Zombies' and the award winning 'Reel Zombies', so it only seemed natural to make it a Zombie Music Video. And so the odyssey began.

In between playing shows, winning Battle of the Bands contests and otherwise taking Southern Ontario by storm, F.U. and VideoMonkey Productions shot six days of guns and gore and hundreds of zombies. The music videos tell the tale of how FU, after a zombie apocalypse, decide they are going to play a show anyway.

They must battle the zombies every step of the way to get to the club, and once they start to play the zombies show up too. It was just too much to fit in the four minute run time of their song. So, a year later, not one, but three music videos and a full length DVD featuring a Making of Featurette, five F.U. songs and loads of special features and shorts entitled 'FU's DVD of the DEAD' was the result.

THE WALKING DEAD... DVD, MAY 16TH 2011

Arguably the biggest hit of the US 2010 television season, the apocalypse drama *The Walking Dead* pulls the zombie subgenre out of its overexposed doldrums and finds, ironically enough, the humanity and emotion beneath its rotting shell.

Produced by Frank Darabont (*The Shawshank Redemption*) and Gale Anne Hurd (*Aliens*) and based on the acclaimed graphic novel by Robert Kirkman, *The Walking Dead* follows a band of Atlanta-based survivors of a viral outbreak that has caused the dead to rise up and consume the living. The group's nominal leader is a sheriff's deputy (Andrew Lincoln) who wakes from a gunshot-induced coma to find the world in disarray and his wife (Sarah Wayne Callies, *Prison Break*) and son missing. His search for his family and the survivors' attempts to make sense of their lives in the wake of the outbreak is handled with intelligence and sensitivity, which helps to elevate the show beyond the grindhouse take on zombies, which favours spilled guts over character development. That's not to say that the blood doesn't flow plentifully here: the special effects are on par with zombie-movie mayhem, but again, they aren't the show's *raison d'être*.

Solid performances, including Jon Bernthal as Lincoln's partner, Jeffrey DeMunn as the group's leading rationalist, and Michael Rooker and Norman Reedus as a pair of trouble-making rednecks, and gripping suspense make each of the first season's six episodes compelling from start to finish for both horror fans and those who dislike the genre as a whole.

DVD Description

Based on a graphic novel, the drama follows Rick Grimes, a sheriff's deputy played by British actor Andrew Lincoln (*This Life*), who wakes from a coma only to find that the country has been overrun by zombies. US zombie show *The Walking Dead* has been signed up for a second series, after only two episodes have aired.

The show, starring British actor Andrew Lincoln, has had record ratings in the States. It will return for a 13 episode second season and the show's makers say they are hoping for at least 10 series.

It premiered on Halloween night in the US and across that week it was shown in more than 100 countries around the world. The show's makers claimed this was a first for a TV show.

The two-disc set of *Walking Dead's* first season includes all six episodes, as well as a number of making-of extras, including the show's conception and production, a talk with Robert Kirkman (he's a fan), a look at the makeup by KNB Studios, and

the show's panel at the 2010 ComicCon.

All of the principal players on both sides of the camera are given adequate screen time to discuss their vision for the show, its influences (George Romero, naturally), and the challenges of depicting the end of civilisation on a budget.

EATERS... RISE OF THE DEAD

“ONE OF THE BEST ZOMBIE FILMS I HAVE SEEN IN YEARS.”

– HORROR-UNRATED.COM.

Presented by cult writer-director-producer Uwe Boll (House Of The Dead; BloodRayne; In The Name Of The King), *Eaters: Rise Of The Dead* is a smart, stylish and ambitious indie horror movie from first time directors Luca Boni and Marco Ristori. Taking an old-school approach to the genre that thematically and atmospherically recalls the post-apocalyptic terrors of George A. Romero's classic "Day Of The Dead",

Eaters: Rise Of The Dead combines brains (in every sense of the word!) and gratuitous gore in one neat bloody package that will satisfy even the most demanding zombie movie fans.

The world has been devastated by what has come to be known as the Great Epidemic, the result of a deadly global virus deliberately spread by an anonymous psychotic terrorist called the Plague Spreader. Essentially turning its victims into the living dead, the epidemic has produced a Hell on Earth in which even the Pope has committed suicide in order to escape the unfathomable horror. Still surviving the madness going on around them is a small group comprising two zombie hunters, Igor (Alex Lucchesi) and Alen (Guglielmo Favilla), a scientist named Gyno (Claudio Marmugi), and Alexis (Rosella Elmi), a former colleague of Gyno's and girlfriend of Alen, who is somehow still alive despite being infected by the virus. Gyno believes that Alexis could be the key to finding a cure that could save the human

race but for his research he desperately needs "guinea pigs", undead test subjects that Igor and Alen are more than happy to provide in exchange for food, beer and board at Gyno's lab. Searching the local countryside for suitable zombie candidates, the two fearless zombie

hunters cross paths with an insane artist, a group of neo-Nazis led by a midget Fuhrer, and a mysterious teenage girl who they believe may be the daughter of the Plague Spreader himself. As Igor and Alen routinely risk their lives fighting and trying to capture the undead, unknown to them, Gyno is secretly working to a completely different agenda – one that could have even more terrifying consequences than the problems created by the Plague Spreader.

Excellent gore effects, impressively stylish cinematography and a fitting music score (by Justin Bennett of Skinny Puppy and My Life With The Thrill Kill Kult fame and Stefano Rossello of Italian experimental industrial band Bahntier) combined with the script's very dark vein of black humour make *Eaters: Rise Of The Dead* a chilling but hugely entertaining ride through a near-future world overrun by zombie flesh-eaters. *Eaters: Rise Of The Dead* (cert. tbc) will be released on DVD by Chelsea Films on 13th June 2011.

ZOMBIE DIARIES 2

The sequel to the smash hit original. The zombie outbreak has overtaken Britain but this time the military are ready and meet the deadly threat head on with extreme force. An epic follow up to the best selling Zombie Diaries.

Three months have passed since a viral outbreak wiped out 99.9% of the world's population, turning its victims into flesh-eating living dead. In the UK, a surviving band of soldiers and civilians have taken refuge at a rural military barracks.

Life in this new world is tough and brutal, but hope appears when a high level communication is received from a military base on the coast, telling of sanctuary elsewhere in Europe... But just as salvation appears to be in reach, the base suffers an overwhelming defeat at the hands of the living dead!

The surviving handful of troops and civilians must now make their way to the coast to uncover the truth

behind the message.

Their perilous journey takes them across a now treacherous, death-ravaged landscape, where the living dead are vast in

number and wandering bandits impose their own malicious sense of law and order.

What follows is a journey into hell and a desperate battle against all odds for the very survival of the human race.

STRANGE ZOMBIES, PART 14

I love this pic quite a lot, although it does scare me. I have never seen a zombie so pleased to be eating a finger before in my life... Where are his bloody socks... Get It? Oh never mind...

THE ULTIMATE GUIDE TO SURVIVING A ZOMBIE APOCALYPSE

By F. Kim O'Neill. Published by Paladin Publishing

Most people are unprepared to face a basic survival situation, let alone a zombie uprising. What happens when all of the trappings of civilization are ruthlessly stripped away? The electricity stops running, and there's no easy way to preserve food or get water from the tap. The law of the land becomes the Law of the Jungle. When you throw in the extra difficulty of defending against hordes of ravenous zombies, it will

be a miracle if most survive overnight, let alone a month or a year. Life expectancy has just dropped to next winter . . . if you're lucky.

That's where this book comes in. What will see you through this horrible zombie apocalypse is not only the knowledge of how to survive but also the confidence such knowledge brings. After reading this book, you will learn:

- * The different classifications of zombies, along with their strengths and weaknesses
- * How to deal with the overall zombie-caused breakdown of society
- * Zombie-fighting tactics and techniques

* How to find food, water, and shelter in a zombie-overrun world

* Skills for dealing with other physical dangers, such as rogue government agencies, zombie animals, and other humans who are competing for scarce resources

* How to prepare a zombie bug-out bag today: a kit that will get you through that critical first week of a zombie apocalypse

Legal issues prevent the author from revealing exactly what he knows about current and future undead-related events. But he will say that you need to read this book now and start preparing for the zombies invasion. It's a no-brainer.

LEICESTERS FIRST HORROR MOVIE ZOMBIE UNDEAD IN DISTRIBUTION DEAL

Leicester's first home grown horror movie 'ZOMBIE UNDEAD' has secured a distribution deal with Metrodome, who have picked up UK and Eire rights for DVD and VOD.

ZOMBIE UNDEAD is a tense claustrophobic horror in which a terrorist biological attack unleashes a plague of the living dead and a small band of survivors battle against the toughest odds. Two years in the making, it was shot in Leicester against a backdrop of local landmarks such as the Clock Tower, Humberstone Gate and De Montfort University.

The movie features a small central cast of local actors playing alongside hundreds of extras from Leicestershire who make up the zombie hoards.

Jezz Vernon, Head of Distribution for Metrodome said: 'We are excited to have acquired the rights to *Zombie Undead* and warmly look forward to working with Rhys as we approach the release.'

Speaking about his debut feature film, Rhys Davies, a creative technologies graduate of De Montfort University, said: "All we had at the start was the vision of producing a high quality feature film and a mad-keen enthusiasm for classic British horror. Securing this distribution deal vindicates the dream and shows that Leicester can compete in the feature film arena. Everyone involved with *Zombie Undead* is delighted to be working with Metrodome, a distributor keen to support British independent films."

ZOMBIE UNDEAD will be released on DVD and VOD from May 30th 2011.

Chemical Burn Entertainment has got a good catalogue of horror, zombie and cult style movies on DVD, so here are a selection of their Living Dead Movies that you should really check out.

THE DEFILED

In a post apocalyptic world, science and technology have backfired leaving unfathomable destruction and a permanently diseased planet in its wake. A virus is mutating the human race turning innocent survivors into mindless cannibals. In a savage future world devoid of hope, a

man infected with the deadly viral disease must cope with the burden of a new born son, ensuring his survival. Though he is infected, he does not allow his growing desire for human flesh to overcome his responsibility to the newborn. Along the road, traveling from town to town, he saves an unaffected woman from a certain death by facing down her perpetrators.

Ultimately she joins him on his odyssey, a journey through hell on earth in search of a safe haven in which they can perhaps start a life together, both becoming committed to doing whatever it takes to make sure the child survives. Reminiscent of the work of Lynch, Maddin and Tarkovsky, The Defiled is a black and white epic of unparalleled artistry examining life, death and the ultimate sacrifice of love. Not since Carnival of Souls and Night of the Living Dead has a film captured the surreal outer dimensions of the human condition.

MELVIN

MELVIN is dead... Now, three years after his accidental murder, he is finally making up for lost time. After enlisting the involuntary help of nerdy college student Norton Pincus, he's ready to take

on those who are responsible for his death. Melvin's thirst for vengeance will take this dynamic dork duo on a mind-blowing streak of throat ripping, vomit spewing, head decapitating and much, much more. Featuring a cameo by Troma Entertainment's Lloyd Kaufman and songs from The Sawyer Family, Monday With a Bullet and Double Plus Good. Melvin will teach you that getting picked on at school can be a real killer!

FAST ZOMBIES WITH GUNS

Collateral Damage, sometimes, it's unavoidable. Mobster Kingpin Paul Varlo's (Charles Ramsey) attempt to kill a potential rat by poisoning his personal water supply leads to something he never saw coming – an outbreak of zombie carnage! To make matters worse, these zombies are different; they're faster, meaner and they're armed. With the town being overrun by fast zombies with guns, one resilient band of people are left to attempt an escape to the nearest undead-free zone and survival. Meanwhile, Jake (Tony Swansey) and his girlfriend Laura (Leena Kurishingal) are cruising their way up to this sweet, little Midwestern town. One quick business transaction with the local mob boss, and they can continue on their way to some fun in the sun, as planned. However, what they discover is a deserted town ... at first. Will the group survive the terror that has befallen them? Will Jake and Laura get their money?? Will the zombies run out of bullets?? The answers can be found in ... Fast Zombies with Guns.

DO YOU HAVE ZOMBIEMANIA?

This work covers from "White Zombie" to "Land of the Dead"

..85 zombie movies that shaped a horror subgenre and left us all with a mortal fear of flesh-eating ghouls clawing their way out of the cold, dark earth. "Zombiemanía" takes an in-depth look at one of the most popular horror film categories of all time.

What is it that makes us so scared of and yet so attracted to the living

dead?

Why is it that shambling corpses with a taste for brains, or mindless automatons controlled by a voodoo master still retain such relentless power?

Would I eat Brains?

Illustrated with many photographs, some published here for the first time, this is one film guide that will leave you with a restless urge to walk the night in search of living flesh.

Zombie Movies on the Horror Channel May and June 2011 (Sky 319, 320 Virgin 149 and Freesat 138)

The year is hotting up but the Horror Channel is making sure you're sweating with fear as we have a gore-drenched selection of movies waiting for you. Here are a few choice cuts for you zombie lovers out there.

May

The blood-soaked British horror/comedy *Zombie Women Of Satan* on Saturday the 14th at 22:55 is chock full of guts, guns and girls! A group of nightclub performers fall foul of a sinister rural family's misdeeds when tortured half-naked women are turned into zombies. When you have a character named Pervo the Clown you know what to expect so tune in for lashings of nudity, gore and blood-splattered shocks. You can catch it again at the same time on June 1st.

If you fancy a late night on Monday 24th then tune in at 2:50 for Conor McMahon's *Dead Meat*. When her friend is bitten by a surprisingly spritely corpse and turns into a flesh muncher, Helena flees for her life. Turns out mad cow disease turns humans into zombies. Who knew?

Sam Raimi's horror classic *The Evil Dead* returns to the Horror Channel at 22:55 on the 26th. It spawned a cult hero in star Bruce Campbell and mixes wry humour with the gore and scares creating a unique celebration of the horror genre. Five friends staying in a remote cabin unwittingly unleash a deadly evil. If you miss it here then tune in on June 15th at the same time.

June

Also known as *Gates of Hell*, and said to form part of

an unofficial trilogy that also contains *The Beyond* and *House by the Cemetery*, *City Of The Living Dead* (June 6th at 22:55) was Fulci's next film after making the groundbreaking *Zombie Flesh Eaters*. A priest's suicide opens the gates of Hell, paving the way for the dead to rise and slaughter the living. Graphic and shocking, this was made when Fulci was at the height of his powers and was delivering the most interesting horror around. This is followed at 00:50 by another cult classic, Kevin Tenney's *Brain Dead*. An alien infection creates a horrific horde of brain-munching zombies shuffling to the

door of a deserted fishing lodge, where terrified and often naked victims await. Packed to the rotting gills with sick humour and even sicker shocks this is perfect fodder for lovers of undead fright flicks.

William Wedig's unsettling shocker *The Rise Of The Dead* hits the Horror Channel on the 10th at 22:55. When an adopted child tragically dies, its restless spirit returns from the grave to carve a blood-soaked path to reconciliation with his birth mother. Chilling and dark the film doesn't hang around and has some very memorable scenes.
